Changmin Lim (Chang)

(646) 887-5066 | cl2534@nyu.edu | https://www.imchorong.com | https://github.com/cl2534

Friendly full stack developer with an eye for new adventure. Having a logical mind, I love the ability to build new things while analyzing the many ways to develop an application. Prior to founding a Boston branch of Give Orange (a non-profit organization), I developed leadership skills while serving in the Korean Army. As a developer, I believe in the efficiency of computer algorithms and its impact on enormous spectrum of other industries.

EXPERIENCE

Give Orange, Inc Founder of Branch NYC & Boston Jan 2016 - Aug 2018

- Launched 20+ fundraising events in Manhattan & Boston with Project Development Team
- Worked as Liaison Officer for Boston branch & Presidential Board to carry out directives & resolutions
