Changmin Lim (Chang)

Brooklyn, NY | (646) 887-5066 | Email | Profile Website | LinkedIn | GitHub | Blog

Friendly full stack web developer with an eye for new adventure. Having a logical mind, I found code and love the ability to build new things while analyzing the many ways to develop an application. As a world traveler, I have visited more than 20 countries and and hungry for new challenges. Prior to founding a Boston branch of Give Orange, a non-profit organization, I developed leadership skills while serving in the Korean Army.

PROJECTS

Picky Eater (GitHub) (Video)

- App that allows user to play a cuisine tournament game
- Displays list of restaurants near user's location using Yelp API
- Built using Ruby on Rails

Poppin (GitHub) (Video)

- App that allows users to share their outfit posts and to create outfit posts based on style categories
- React Front-End / Ruby on Rails Back-end

NYU Sales (GitHub) (Video)

- App for college students where they can sell school needs and comment each post to communicate if interested
- Built using React/Redux Front-End and Ruby on Rails Back-End
